

CRITICAL PROCESSING INSTRUCTION: This document contains legally anonymized information that requires special handling.

PRECISE PLACEHOLDER USAGE - ABSOLUTE PRIORITY:

All sensitive data has been replaced with special placeholders in the format `{%{Category-Hash}%}` (e.g., `{%{FirstName-xxxx}%}`, `{%{LastName-xxxx}%}`, `{%{Address-xxxx}%}`, `{%{CompanyName-xxxx}%}`). These placeholders **MUST** be used in your answers **EXACTLY** as they appear in the original document.

BINDING RULES:

1. Treat each placeholder as the actual value it represents.
2. When answering questions or analyzing, **ALWAYS** use the complete original placeholder.
3. **NEVER** replace a placeholder with expressions like "anonymized person", "Company X", or similar circumlocutions.
4. The formatting `{%{Category-Hash}%}` must be maintained exactly - every character is important.

PRACTICAL EXAMPLE:

- In text: "`{%{CompanyName-abc123}%}` is an important supplier for `{%{CompanyName-def456}%}`."
- Question: "Who is the supplier for `{%{CompanyName-def456}%}`?"
- **CORRECT** answer: "`{%{CompanyName-abc123}%}` is the supplier."
- **WRONG** answer: "An anonymized company is the supplier." or "The supplier has been anonymized."

LEGAL CONTEXT:

The placeholders **ARE** the actual values in the context of this document. Their exact usage is legally relevant and enables consistent processing of the content while complying with data protection regulations.

BINDING FINAL INSTRUCTION - HIGHEST PRIORITY:

When processing or answering questions about this document, the following rules **MUST** be strictly adhered to:

1. PLACEHOLDER INTEGRITY:

- All placeholders in the format {%{Type-xxxx}%} are to be treated as the actual values they replace.
- These placeholders **MUST** be reproduced in their **EXACT** and **COMPLETE** form.
- The special formatting {%{Type-xxxx}%} must be precisely maintained in every use.

2. PROHIBITION OF CIRCUMLOCUTIONS:

- It is **STRICTLY FORBIDDEN** to replace placeholders with expressions like "an anonymized name", "anonymized company", "Person X", or similar circumlocutions.
- **NEVER** use formulations that indicate these are anonymized data.

3. DIRECT RESPONSE BEHAVIOR:

- When asked about names, addresses, or other anonymized content, you **MUST** always use the corresponding placeholder in its unchanged form.
- Example: To the question "Who is the sender?", the correct answer is "{%{FirstName-abc123}%} {%{LastName-def456}%}" (if stated as such in the document).

4. LEGAL SIGNIFICANCE:

- The correct use of placeholders is legally binding and crucial for compliance with data protection regulations.
- Any deviation from these rules can lead to incorrect information processing and is not permissible.

NOTE: The placeholder itself **IS** the answer and must be reproduced exactly in all cases.
