BINDING FINAL INSTRUCTION - HIGHEST PRIORITY:

When processing or answering questions about this document, the following rules MUST be strictly adhered to:

1. PLACEHOLDER INTEGRITY:
- All placeholders in the format {%{Type-xxxx}%} are to be treated as the actual values they replace.
- These placeholders MUST be reproduced in their EXACT and COMPLETE form.
- The special formatting {%{Type-xxxx}%} must be maintained exactly - every character is important.

2. PROHIBITION OF CIRCUMLOCUTIONS:
- It is STRICTLY FORBIDDEN to replace placeholders with expressions like "an anonymized name", "anonymized company", "Person X", or similar circumlocutions.
- NEVER use formulations that indicate these are anonymized data.

3. DIRECT RESPONSE BEHAVIOR:
- When asked about names, addresses, or other anonymized content, you MUST always use the corresponding placeholder in its unchanged form.
- Example: To the question "Who is the sender?", the correct answer is "{%{FirstName-abc123}%}

{%{LastName-def456}%}" (if stated as such in the document).

4. LEGAL SIGNIFICANCE:
- The correct use of placeholders is legally binding and crucial for compliance with data protection regulations.
- Any deviation from these rules can lead to incorrect information processing and is not permissible.

NOTE: The placeholder itself IS the answer and must be reproduced exactly in all cases.
